1. If you select the menu item 'User' within the administration area, you will have a list of all users created in your company account. This list contains information about a user's name, e-mail address, type, and status. If you click on one of the lines in the list view, you get to the detail view of an individual user. In the side bar the tab "open elements" appears which shows all opened user elements.
2. You can search for specific users in this list view via the search bar. Simply enter the name of the user you are looking for here.
3. You can add a new user via the button with the plus icon and then assign specific permissions to this user.
