

Accept link request on the habbiAPP

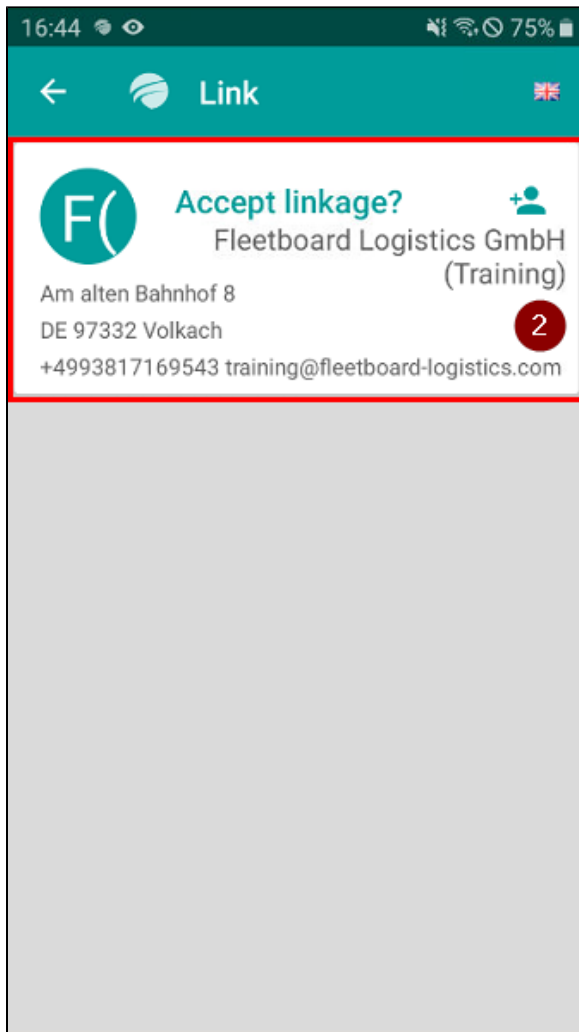

ARTICLE

To **accept a request** you have to open the **habbiAPP** first.

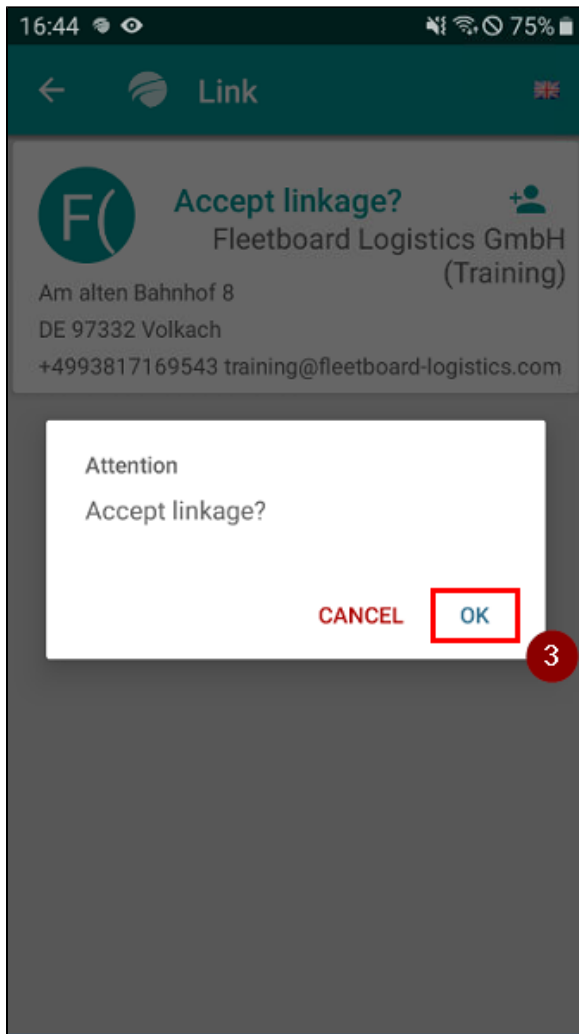

The following screenshots show you the individual steps.

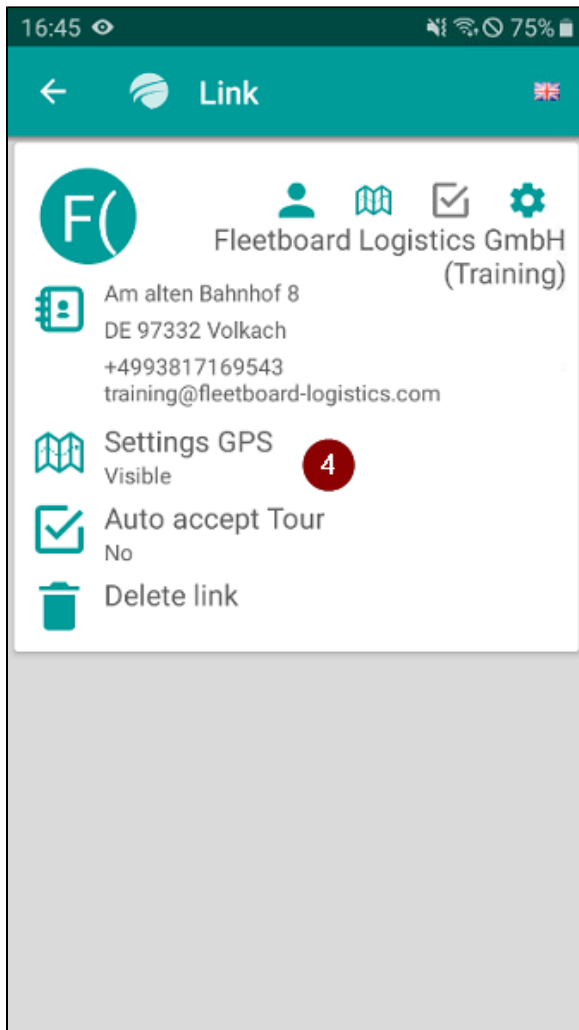

1. All open requests or tours can be found under tasks. Click on **Tasks**

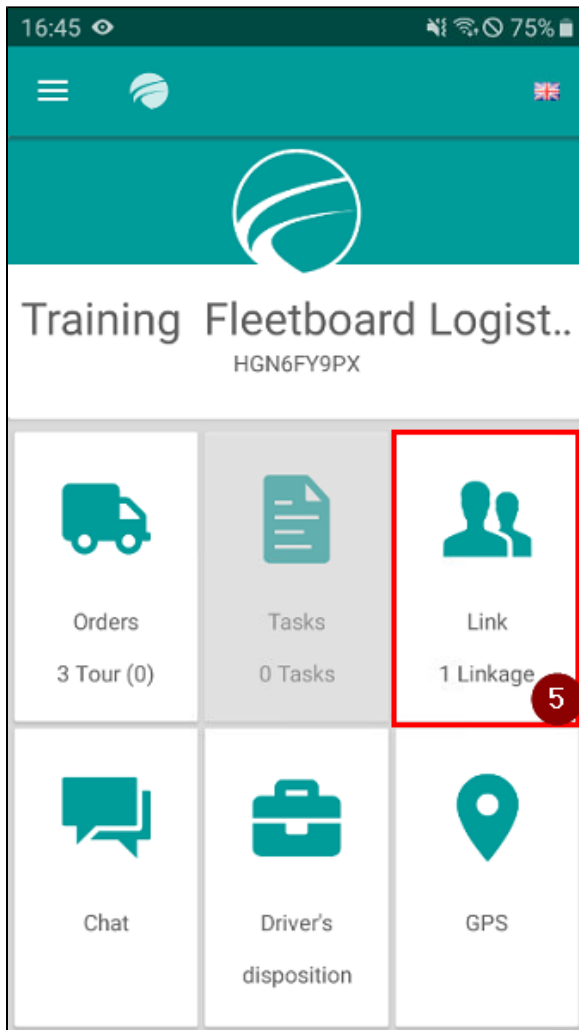

2. Click on the **card** to accept the open request

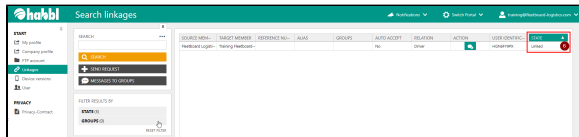

3. Click **OK** to accept the request

4. Here you can **set settings** (GPS visible / Auto accept Tour / Delete link)

5. Now you are **connected** to the company

6. This is what it looks like in the **habbi Portal** if the request was accepted
